

# CONTENTS

<b>PREFACE</b> .....	<b>3</b>
<b>1 INTRODUCTION</b> .....	<b>13</b>
<b>2 UBIQUITOUS COMPUTING, THE AUTOMATION OF EVERYDAY LIFE AND THE ROLE OF CONTROL</b> .....	<b>19</b>
2.1 WHAT IS UBIQUITOUS COMPUTING?.....	19
2.2 UBIQUITOUS COMPUTING AND THE AUTOMATION OF EVERYDAY LIFE.....	21
<b>2.2.1 Automation and Parallels to Ubiquitous Computing</b> .....	<b>21</b>
<b>2.2.2 Classifying Ubiquitous Computing Applications</b> .....	<b>23</b>
2.3. USER ACCEPTANCE OF AUTOMATION AND THE ROLE OF CONTROL .....	29
<b>2.3.1 Concept and Study of User Acceptance</b> .....	<b>29</b>
<b>2.3.2. Meaning of the Term ‘Control’</b> .....	<b>31</b>
<b>2.3.3 Acceptance Challenges of Input Automation and the Role of Control</b> .....	<b>37</b>
<b>2.3.4 Acceptance Challenges of Output Automation and the Role of Control</b> .....	<b>45</b>
<b>2.3.5 Conclusion: Is Automation Automatically a Good Thing?</b> .....	<b>50</b>
<b>3 USER CONCERNS, TECHNICAL CHALLENGES AND CONTROL OPTIONS OVER AUTOMATED INFORMATION COLLECTION – THE CASE OF RFID. 55</b>	
3.1 INTRODUCTION TO RFID.....	55
<b>3.1.1 The Many Forms of RFID</b> .....	<b>56</b>
<b>3.1.2 Information Infrastructures and Architectures for RFID</b> .....	<b>57</b>
<b>3.1.3 Benefits and Critiques of RFID</b> .....	<b>58</b>
3.2 INFORMATION COLLECTION CONCERNS OVER RFID .....	62
<b>3.2.1 Method: A Qualitative Approach to Elicit Consumer Concerns</b> .....	<b>64</b>
<b>3.2.2 Results: RFID Related Consumer Concerns</b> .....	<b>66</b>
<b>3.2.3 Discussion: Requirements for RFID Information Flow Control</b> .....	<b>69</b>
3.3 TECHNICAL FEASIBILITY OF CONSUMER CONCERNS.....	73
<b>3.3.1 Unauthorised Assessment of Belongings and Classification</b> .....	<b>73</b>
<b>3.3.2 Tracking of Individuals via their Objects</b> .....	<b>75</b>
<b>3.3.3 Making People Responsible for Objects</b> .....	<b>77</b>
<b>3.3.4 Being Restricted or Social Control through RFID</b> .....	<b>79</b>
3.4 TECHNICAL OPTIONS TO ADDRESS CONSUMER CONCERNS.....	81

---

3.5	MEASURING PERCEIVED CONTROL OVER RFID TAG-READER COMMUNICATION .....	97
3.5.1	<i>Dimensions of Perceived Control</i> .....	98
3.5.2	<i>Scale Development and Item Testing</i> .....	100
3.6	RFID PET ACCEPTANCE AND THE RELATIVE IMPORTANCE OF PERCEIVED CONTROL .....	105
3.6.1	<i>Method Used to Investigate User Perceptions of RFID PETS</i> .....	108
3.6.2	<i>Results: How do Users Respond to PETs for RFID?</i> .....	112
3.6.3	<i>A Qualitative Evaluation of PET Solutions</i> .....	116
3.6.4	<i>Conclusions on the Acceptance of PET Solutions</i> .....	117
3.7	CONCLUSION: INFORMATION COLLECTION WITH RFID .....	121
<b>4</b>	<b>A UBIQUITOUS COMPUTING ACCEPTANCE MODEL AND THE ROLE OF CONTROL OVER AUTOMATED SYSTEM ACTIVITY .....</b>	<b>125</b>
4.1	TECHNOLOGY ACCEPTANCE RESEARCH AND ITS TRANSFERABILITY TO UBIQUITOUS COMPUTING .....	125
4.2	CONCEPTUAL FRAMEWORK FOR A UBIQUITOUS COMPUTING ACCEPTANCE MODEL .....	128
4.2.1	<i>Hypotheses on the Drivers and Impediments of UC Acceptance</i> .....	128
4.2.2	<i>Method to Investigate the UC-Acceptance Model</i> .....	138
4.2.3	<i>Results: Fit and Strength of the UC-Acceptance Model</i> .....	142
4.2.4	<i>Discussion: The Value of UC-AM to Explain Service Acceptance</i> .....	148
4.2.5	<i>Implications of the UC Acceptance Model for Practice</i> .....	151
4.3	ABOUT THE IMPORTANCE OF FUNCTION ALLOCATION FOR UC ACCEPTANCE .....	154
4.3.1	<i>Methodology: A Scenario Based Variation of Function Allocation</i> .....	157
4.3.2	<i>Results: Perceptions and Effects of Function Allocation</i> .....	159
<b>5</b>	<b>CONCLUSION .....</b>	<b>165</b>
	<b>REFERENCES .....</b>	<b>171</b>
	<b>APPENDIX .....</b>	<b>189</b>
