

Table of Contents

List of Figures	15
List of Tables	17
Abbreviations	21
A. Introduction	23
1. Various forms of entrepreneurship: productive, unproductive and destructive.....	23
2. Research questions.....	25
3. Definition of a key concept: what is entrepreneurship?	26
4. Entrepreneurship in transition: context matters.....	32
5. Outline of thesis and a preview of the following chapters	35
B. Theoretical exploration of productive, unproductive and destructive entrepreneurship	39
1. Productive, unproductive and destructive entrepreneurship: conceptual review and empirical evidence	39
2. Activities and value creation: a general framework	43
2.1. Value creation from SMEs activities by different types of firms.....	43
2.2. Output and activities in the context of the assessment of productive, unproductive and destructive entrepreneurship	47
3. Conceptualisation of the term 'activities'	50
4. Antecedents and influences for activities	53
5. Influence of environment.....	55
6. The relationship between motivation, activities, environmental influences and output.....	59
6.1. Conceptualising the general relationship between activities and value creation.....	60
6.2. Conceptualising the relationship between motivation, activities and value creation	62
6.3. Addressing the complexity of the relationship between activities and SME value creation.....	63
6.4. Conceptualising the relationship between EO, EB and SME value creation	68
7. Framework for the assessment of (directly and indirectly) productive, unproductive and destructive entrepreneurship	70

C. Towards a measurement of productive, unproductive and destructive entrepreneurship.....	73
1. Towards a measurement of EB and EO.....	73
2. Towards a measurement of SME output on a venture level.....	75
3. Towards a measurement of SME output on a societal level.....	76
4. Towards a measurement of activities' antecedents and influences: expectations and goals	80
5. Towards a measurement of environmental influences and access to capital.....	81
D. Methodology	85
1. Description of the survey method.....	86
2. Questionnaire forms and measures	88
2.1. Measurement of EB	89
2.2. Measurement of EO	90
2.3. Measurement of SME output on a venture level	93
2.4. Measurement of SME output on a societal level	94
2.5. Measurement of environmental influences and access to capital.....	96
2.6. Measurement of expectations and goals, and controls	97
3. Response rate and item non- response.....	99
4. Survey biases	101
5. Characteristics and sample representativeness	105
5.1. Individual level characteristics and sample representativeness.....	106
5.2. Venture-level characteristics and sample representativeness	108
6. Approach for the analysis of results	111
E. Empirical exploration of productive, unproductive and destructive entrepreneurship.....	115
1. SME output: venture and societal level.....	115
2. Determinants and influences of productive, unproductive and destructive entrepreneurship.....	118
3. Determinants of productive, unproductive and destructive entrepreneurship: individual indexes of EO and EB	129
4. Determinants of productive, unproductive and destructive entrepreneurship: an exploratory approach.....	137
4.1. The relationship between EB, EO and SME value creation.....	138
4.2. Relationship between the environment, access to capital and activities....	149
5. Determinants of productive, unproductive and destructive entrepreneurship: joint influences of EO and EB on SME value creation	156

6. Assessing the relationship as conceptualised by goals and expectations, EB and EO, and SME value creation.....	160
F. Conclusions and implications	165
References.....	173
Appendix 1: Questionnaire form for the face to face interviews, 2005.....	185
Appendix 2: Questionnaire form for the follow up study, phone interviews, 2006.....	202
Appendix 3: Selected individual level characteristics	212
Appendix 4: Selected venture level characteristics.....	214
Appendix 5: Rent Seeking versus Conforming Behaviour	216
Appendix 6: Unofficial Payments versus Conforming Behaviour	217
Appendix 7: Unethical Behaviour versus Conforming Behaviour.....	218
Appendix 8: Means, S.D's, and correlations for quantitative variables (EO)	219
Appendix 9: Means, S.D's, and correlations for quantitative variables (EB).....	221
Appendix 10: Individual dimensions of EO: results from the analysis	223
Appendix 11: Types of irregular payments versus conforming activity and resulting SMEs output in venture level short and long term....	224
Appendix 12: Types of irregular payments versus conforming activity and resulting SMEs output in societal level short and long term	226
Appendix 13: Perceived environmental influences and involvement in various dimensions of EO	228
Appendix 14: Access to capital and involvement in various dimensions of EO	230
